

FAMILY STEPS TO SURVIVAL

Gifts of Life

WHY?

Show you care!

Are you having trouble deciding what to get a family member, friend or coworker for the holidays or an upcoming birthday? If so, a survival gift might be the answer, especially for someone who hasn't already bought or assembled their own emergency preparedness kit. Flashlights, portable battery-operated radios, first aid kits and other emergency supplies will be valuable after a damaging earthquake since people living in the affected area might have to rely on themselves for at least 72 hours.

HOW

Make a list of persons for whom you're going to buy or assemble survival gifts. List what you think everyone needs. Depending on your financial situation and the needs of the people on your list, you might get one item or an entire kit. You also can coordinate with other relatives, friends and coworkers to buy different emergency supply items or to assemble kits as a group project, with each participant contributing one item to the kits.

The reverse side of this ESP information sheet offers suggestions on holiday gifts that will help prepare your friends and neighbors for the next earthquake or emergency.

These are only suggestions for preparing your family. Use discretion and common sense in your preparations.
